NUMBER 1, MARCH

G. L. Clarke: Pyroxene microlites and contact metamorphism in pseudotachylite veinlets from MacRobertson Land, East Antarctica 1

W. J. Collins and C. M. Gray: Rb–Sr isotopic systematics of an Archaean granite–gneiss terrain: The Mount Edgar Batholith, Pilbara Block, Western Australia 9

D. F. Branagan and H. Pedram: The Lapstone Structural Complex, New South Wales 23

A. P. Belperio and D. G. Fotheringham: Geological setting of two Quaternary footprint sites, western South Australia 37

A. D. Allan and E. C. Leitch: The tectonic significance of unconformable contacts at the base of Early Permian sequences, southern New England Fold Belt 43

P. D. Kinny, J. R. Wijbrans, D. O. Froude, I. S. Williams and W. Compston: Age constraints on the geological evolution of the Narryer Gneiss Complex, Western Australia 51

L. A. Chambers, J. Ferguson and R. V. Burne: Controls and effects of continental brine formation in a supratidal ephemeral lake in the semi-arid environment of Spencer Gulf, South Australia 71

J. B. Willcox: Gravity trends as an expression of lithospheric extension on the southern margin of Australia 85

X. Y. Chen, J. R. Prescott and J. T. Hutton: Thermoluminescence dating on gypseous dunes of Lake Amadeus, central Australia 93

N. J. McNaughton and N. M. Goelinicht: Geological Note: The age and radiothermal properties of the Mount Crofton Granite, Telfer area, Western Australia 103

D. E. Leaman: Geological Note: The Sydney Basin: Composition of basement 107

D. E. Leaman: Discussion: Gravitational (density) controls on volcanism, magma chambers and intrusions 109

R. C. Horwitz: Discussion: The Sodium Group, South Africa: Reference section for Late Archaean–Early Proterozoic cratonic cover sequences 111

NUMBER 2, JUNE

A. R. Chivas, T. Torgersen and H. A. Polach: Growth rates and Holocene development of stromatolites from Shark Bay, Western Australia 113

J. J. Veevers: Antarctica–Australia fit resolved by satellite mapping of oceanic fracture zones 123

J. D. Gray and J. P. Cull: Magnetotelluric soundings and resistivity profiles in the Willyama Complex 127

P. A. DiBona, C. C. von der Borch and N. Christie-Blick: Sequence stratigraphy and evolution: The Late Proterozoic Wonoka Formation, Flinders Ranges, South Australia 135

P. G. Stuart-Smith: Evidence for extensional tectonics in the Tumut Trough, Lachlan Fold Belt, NSW 147

B. A. Gaull, M. O. Michael-Leiba and J. M. W. Rynn: Probabilistic earthquake risk maps of Australia 169

M. Ahmad and J. L. Walshe: Wall-rock alteration at the Emperor gold–silver telluride deposit, Fiji 189

F. C. Loughnan and F. I. Roberts: Composition and origin of the 'zebra rock' from the East Kimberley region of Western Australia 201

Y. Bone and R. Wass: Sub-Recent bryozoan–serpulid buildups in the Coorong lagoon, South Australia 207

D. M. Brown, J. W. Lloyd and G. Jacobson: Hydrogeological model for Amadeus Basin aquifers, central Australia 215

G. Taylor and W. Mayer: Depositional environments and palaeogeography of the Worange Point Formation, New South wales 227

J. S. Myers: Geological Note: Anorthosite in the Leeuwin Complex of the Pinjarra Orogen, Western Australia 241

NUMBER 3, SEPTEMBER

K. S. W. Campbell: Palaeontological contributions to modern evolutionary theory. 1986 Mawson Lecture 247

A. Goede, H. H. Veeh and L. K. Ayliffe: Late Quaternary palaeotemperature records for two Tasmanian speleothems 267

R. T. Pidgeon, S. A. Wilde, W. Compston and M. W. Shield: Archaean evolution of the Wongan Hills Greenstone Belt, Yilgarn Craton, Western Australia 279

J. W. Pickett, N. Smith, P. M. Bishop, R. S. Hill, M. K. Macphail and W. B. K. Holmes: A stratigraphic evaluation of Ettingshausen's New England Tertiary plant localities 293

C. Prasada Rao and B. Wang: Oxygen and carbon isotope composition of Gordon Group carbonates (Ordovician), Florentine Valley, Tasmania, Australia 305

B. G. Jones: Cretaceous and Tertiary sedimentation on the western margin of the Eucla Basin 317

C. M. Gray: A strontium isotopic traverse across the granitic rocks of southeastern Australia: Petrogenetic and tectonic implications 331

H. I. M. Struckmeyer and E. A. Felton: The use of organic facies for refining palaeoenvironmental interpretations: A case study from the Otway Basin, Australia 351

C. V. Murray-Wallace and R. P. Bourman: Geological Note: Direct radiocarbon calibration for amino acid racemization dating 365

C. S. Perring and N. J. McNaughton: Geological Note: Proterozoic remobilization of ore metals within Archaean gold deposits: Lead isotope evidence from Norseman, Western Australia 369

N. J. McNaughton and K. F. Cassidy: Geological Note: A reassessment of the age of the Liberty Granodiorite: Implications for a model of synchronous mesothermal gold mineralization within the Norseman–Wiluna Belt, Western Australia 373

G. H. Browne and B. S. Hart: Discussion: Hummocky cross-stratification from the Boxvale Sandstone Member in the northern Surat Basin, Queensland 377

C. R. Fielding: Reply to Discussion: Hummocky cross-stratification from the Boxvale Sandstone Member in the northern Surat Basin, Queensland 379

NUMBER 4, DECEMBER

P. W. Schmidt and P. J. Hamilton: Palaeomagnetism and the age of the Tumblagooda Sandstone, Western Australia 381

C. L. Fergusson, R. A. Henderson and E. C. Leitch: Structural history and tectonics of the Palaeozoic Shoalwater and Wandilla terranes, northern New England Orogen, Queensland 387

F. H. Chamalaun and P. Cunneen: The Canning Basin geomagnetic induction anomaly 401

P. H. G. M. Dirks: Intertidal and subtidal sedimentation during a mid-Proterozoic marine transgression, Reynolds Range Group, Arunta Block, central Australia 409

D. L. Huston: The stratigraphic and structural setting of the Balcooma volcanogenic massive sulphide lenses, northern Queensland 423

T. H. Bell and S. E. Johnson: Rotation of relatively large rigid objects during ductile deformation: Well established fact or intuitive prejudice? 441

G. M. Young and V. A. Gostin: Sturtian glacial deposition in the vicinity of the Yankaninna Anticline, North Flinders Basin, South Australia 447

B. Gulson, C. F. K. Diessel, D. R. Mason and T. E. Krogh: High precision radiometric ages from the northern Sydney Basin and their implication for the Permian time interval and sedimentation rates 459

J. D. A. Clarke: An Early Cambrian carbonate platform near Wilkawillina Gorge, South Australia 471

S. Y. O'Reilly: Discussion: The Sydney Basin: Composition of basement 485

D. E. Leaman: Reply to Discussion: The Sydney Basin: Composition of basement 487

V. Anfiloff: Discussion: Regional geological interpretation of a digital coloured residual Bouguer gravity image of eastern Australia with a wavelength cut-off of 250 km 489

C. G. Murray and E. Scheibner: Reply to Discussion: Regional geological interpretation of a digital coloured residual Bouguer gravity image of eastern Australia with a wavelength cut-off of 250 km 493
